

SIVA KRISHNA KARRI

Senior Mobile Application Developer (React Native)

+91-8639277629 | siva0423@gmail.com | Hyderabad, India

PROFESSIONAL SUMMARY

Senior Mobile Application Developer with 9+ years of experience building mobile, XR, and enterprise applications. Skilled in React Native, TypeScript, Redux, REST APIs, Firebase, mobile architecture, Play Store publishing, and performance optimization. Proven track record delivering healthcare, aviation, finance, AR/VR, and wellness applications from concept to production.

TECHNICAL SKILLS

Mobile Development: React Native, JavaScript (ES6+), TypeScript, Expo, React Navigation, Expo Router, REST APIs, Axios, Firebase, AsyncStorage, Push Notifications, Android Build & Release, AAB/APK Generation, Keystore Signing

State Management & Architecture: React Hooks, Context API, Redux, Redux Toolkit, Clean Architecture, SOLID Principles, MVC.

Publishing & Monetization: Google Play Store Publishing, **Fastlane Automation**, CI/CD for Mobile Releases, AdMob Integration (Banner, Interstitial, Rewarded Ads), In-App Purchases, Subscription Systems, Release Management

AI & Integrations: AI Service Integration (REST APIs), Third-Party SDK Integration, Backend Integration

Tools & Platforms: Git, GitHub, Android Studio, VS Code

Additional XR & 3D Development Experience: Unity3D, C#, XR Interaction Toolkit, OpenXR, ARFoundation, ARKit, ARCore, Vuforia, MRTK, Oculus Quest 2/3, HoloLens 2

PROFESSIONAL EXPERIENCE

Senior Software Engineer | React Native Developer

Metaloga Private Limited (Reinvision Labs Pvt Ltd) | Hyderabad | Mar 2024 – Present

- Developed and maintained React Native applications with REST API integrations, Redux Toolkit state management, push notifications, and Play Store deployments.
- Built reusable UI components, optimized application performance, and collaborated with cross-functional teams to deliver scalable mobile solutions across Android platforms.

Senior Mobile Application Developer | React Native Developer

Reinvision Labs Pvt Ltd | Hyderabad, India | Feb 2021 – Feb 2024

- Led the development of production-grade React Native applications, delivering responsive user experiences across Android and iOS platforms. Designed and integrated RESTful APIs, real-time data synchronization, and analytics dashboards, reducing manual maintenance efforts by 60% and improving application scalability.

Senior Member Of Technical Staff | Mobile Application Developer

Kiksar Technologies Pvt Ltd | Bangalore, India | Dec 2018 – Dec 2020

- Developed innovative AR fashion try-on and beauty applications using ARCore, XZIMG, and ARFoundation.

- Created real-time AR facial tracking systems with 95% accuracy for virtual makeup and accessory simulation

Mobile Application Developer

Pixel Games Studio | Hyderabad, India | Aug 2017 – Dec 2018

- Built and optimized mobile applications for Android platforms, focusing on performance, user engagement, and scalable code architecture.

Mobile Application Developer

Capital Numbers Infotech Pvt. Ltd | Chennai, India | Jan 2017 – Jul 2017

- Created simulation and educational apps for healthcare training, improving learning efficiency by 40% for medical professionals.

Software Engineer

The Red & Black | Visakhapatnam, India | Sep 2014 – Jan 2017

- Developed interactive mobile applications and real-time user experiences using C# and Unity.

KEY PROJECTS

- **Aviation Learning & Training Application** : Designed and developed a React Native application enabling aviation professionals to access training materials, complete assessments, and track certification progress. Integrated REST APIs, offline data storage, and analytics features, serving 500+ users and reducing operational costs by 35%.
- **Relversiv Health & Wellness Application** : Built a React Native mobile application for chronic pain management, featuring personalized exercise plans, activity tracking, notifications, user progress monitoring, and backend integrations. Implemented REST API communication, local data storage, and analytics, supporting 1,000+ active users.
- **Relversiv BackPain Companion** : Mobile application focused on spine health and wellness. Developed features including personalized exercise routines, water intake tracking with reminders, and meal & nutrition logging to help users maintain a healthy lifestyle and recovery process. Built responsive and user-friendly mobile interfaces using React Native.
- **AR Fashion & Beauty Virtual Try-On App** –: Designed and developed a real-time AR application enabling users to virtually try clothing, accessories (e.g., goggles, hats, jewelry), and beauty products (e.g., kajal, eyeliner, lipstick) using high-accuracy face and body tracking.
- **EMI SIP GST Calculator (React Native)**: Independently designed, developed, tested, and published a cross-platform finance utility application featuring EMI, SIP, FD, RD, SWP, GST, and Reverse SIP calculators with accurate real-time computations. Implemented finance news and live gold rate features through REST API integrations, integrated AdMob monetization, and built reusable calculation modules. Managed the complete application lifecycle including UI/UX implementation, backend integration, build signing, versioning, testing, Play Store deployment, and production maintenance.
